## ABOUT THE PRINTS TYPES

### **Dibond prints :**

The Dibond is a sandwich structured composite material (structure made of three layers: a low-density core, and a thin aluminium skin-layer bonded to each side). That's a strong, light and stainless support. We offer here a direct print on white Dibond, 3mm width, with some hooking bars or chassis on the back (the picture won't have any aluminium shade thanks to the white coating / by putting a slight gap between the picture and your wall, the hooking bars will set it off).

### **Matte paper prints :**

Matte paper - 170g (similar to the displayed prints at FGO-Barbara).
